

Department of Ecology & Evolutionary Biology

2015 Fall Seminar Series

Natural Sciences 2, Room 4201

Fridays, 3 pm-4pm; followed by a Roof top reception in SH

- | | | |
|-----|----|---|
| Oct | 2 | Dan Blumstein, UCLA
"The sound of fear: a journey from the mountains to Hollywood"
Host: Diane Campbell |
| Oct | 9 | Howard Cornell, UCD
"What is the species pool and when is it important?"
Host: Brad Hawkins |
| Oct | 16 | Darren Johnson, California State University, Long Beach
"Special little snowflakes: How variation among individuals can influence the dynamics of fish populations."
Host: Cascade Sorte |
| Oct | 23 | Kwasi Connor, University of Southern California
"Clocks, batteries and scavengers: The integrative biology of the mussel <i>Mytilus californianus</i> "
Host: Donovan German |
| Oct | 30 | Kailen Mooney, UCI
"The evolutionary ecology of tri-trophic interactions"
Host: Diane Campbell |
| Nov | 6 | Joel Abraham, California State University, Fullerton
"Supporting student success in biology: research on assessment, computer-based instruction, and teacher preparation"
Host: Steve Weller |
| Nov | 13 | Kabir Peay, Stanford University
"Ecology from the ground up: a roots-to-biomes look at fungal community structure and function"
Host: Graduate students |
| Nov | 20 | Erin Wilson Rankin, UCR
"Multi-trophic effects of invasive rats on arboreal Hawaiian food webs"
Host: Brad Hawkins |
| Nov | 27 | Thanksgiving holiday, no seminar |
| Dec | 4 | Andrew Whitehead, UCD
"The evolution of diverse osmotic physiologies in fishes"
Host: Donovan German |
